Subject: data

Luis, here is a link to the report. Data starts on page A6. If you have any trouble looking at this please call me. I am working on getting the data into resident by resident reports like we have done in the past.

All you need to do is click on the link below and that should take you to the report. I'm going to send you a hard copy of the report in the mail so that you don't have to download it and print it.

<http://www.epa.gov/region8/superfund/wy/pavillion/phase5/PavillionSeptember2012Appendices.pdf>

Luis, this is the entire data set. What I handed out in Pavillion back in October was a brief summary of the domestic well results. So this report has everything in it but it's not all that easy to find your data. So again please call me if you need help with that and I'll walk you through your data.
